

Claims

- [c1] 1.A carton for enclosing a number of products, comprising:
 - a top panel;
 - a first side panel positioned adjacent to the top panel;
 - a second side panel positioned adjacent to the top panel;
 - a top panel tab positioned adjacent to the top panel and separated by a top panel fold line;
 - a first score line extending across the top panel from the first side panel to the second side panel; and
 - a pair of second score lines extending across the top panel from the first side panel and the second side panel to the first fold line, thus forming a first and a second corner flap along the top panel.
- [c2] 2.The carton of claim 1, wherein the top panel tab comprises a pair of top panel tab score lines extending across the top panel tab from the pair of second score lines.
- [c3] 3.The carton of claim 1, wherein the top panel and the first side panel are separated by a first top panel fold line and wherein the top panel and the second side panel are separated by a second top panel fold line.

- [c4] 4.The carton of claim 1, wherein the first side panel comprises a first side panel score line extending from the first score line to a first of the pair of second score lines.
- [c5] 5.The carton of claim 4, wherein the second side panel comprises a second side panel score line extending from the first score line to a second of the pair of second score lines.
- [c6] 6.The carton of claim 2, wherein the first side panel comprises a first side panel tab and wherein the second side panel comprises a second side panel tab.
- [c7] 7.The carton of claim 6, wherein the first side panel tab comprises a first side panel tab score line and wherein the second side panel tab comprises a second side panel tab score line.
- [c8] 8.The carton of claim 7, wherein the first side panel tab score line aligns with a first of the pair of top panel tab score lines and the second side panel tab score line aligns with a second of the pair of top panel tab score lines.
- [c9] 9.The carton of claim 5, wherein the first side panel score line and the second side panel score line comprise

a substantially squared "U"shape.

- [c10] 10.The carton of claim 1, wherein the first and the second corner flaps comprise a rectangle.
- [c11] 11.The carton of claim 1, wherein the top panel comprises a finger cut out formed therein.
- [c12] 12.The carton of claim 6, wherein the first side panel tab and the second side panel tab comprise a finger cut out formed therein.
- [c13] 13.A carton for enclosing a number of products, comprising:
 - a top panel;
 - a pair of side panels positioned adjacent to the top panel;
 - an end panel positioned adjacent to the top panel and the pair of side panels; and
 - a removable portion;
 - the removable portion forming a pair of corner posts; each of the pair of corner posts defined by a portion of the top panel, one of the side panels, and the end panel.
- [c14] 14.The carton of claim 13, wherein each of the pair of corner posts comprises a rectangle along the top panel.
- [c15] 15.The carton of claim 13, wherein each of the pair of

corner posts comprises a length on the top panel along the first and the second side panels of about 1.0 centimeter and a length on the top panel along the end panel of about 1.0 centimeter.

- [c16] 16. The carton of claim 13, wherein each of the corner posts comprises a length into the first and the second side panels of about 8.3 centimeters.
- [c17] 17. The carton of claim 17, wherein each of the corner posts comprises a length into the end panel of about eight (8) centimeters.
- [c18] 18. The carton of claim 13, wherein the removable portion comprises one or more finger cut outs formed therein.
- [c19] 19. The carton of claim 13, wherein the end panel comprises a plurality of tabs.
- [c20] 20. A carton, comprising:
 - a top enclosure;
 - a pair of side enclosures positioned adjacent to the top enclosure;
 - an end enclosure positioned adjacent to the top enclosure and the pair of side enclosures; and
 - a plurality of score lines extending along the top enclosure, the pair of side enclosures, and the end enclosure;

the plurality of score lines defining a pair of corner posts extending along the top enclosure, the pair of side enclosures, and the end enclosure.

- [c21] 21.A container, comprising,
 - a top panel;
 - a pair of side panels adjacent to the top panel;
 - an end panel adjacent to the top panel and the pair of side panels; and
 - dispenser means positioned along the top panel, the pair of side panels, and the end panel;
 - the dispenser means comprising a pair of corner posts.
